=====

To reputable Nurserymen we are offering this stock at a price on which you can REALIZE A PROFIT. These ornamentals are all of extra fine quality, Colorado grown, well matured, power dug, and carefully graded. They were grown on a light loam, and so have plenty of fibrous roots.

We specialize in the hardy Northern strain of Chinese Elm (*Ulmus pumila*). Write for prices on seedlings - we have an abundance of excellent stock. In lining-out shrubbery we also have some fine values.

Trees and shrubs are tied in bundles of ten, additional charge will be made for less quantities. Boxing & baling added at actual cost.

SHADE AND ORNAMENTAL TREES

Suitable for the best retail trade. Straight, well branched specimens.
